2018 Gold Coast Games – Selection Criteria – Shooting – Full Bore

Agreement between Commonwealth Games Target Shooting Association and the Commonwealth Games Association of Jersey confirming agreement of the Selection Criteria applicable to selection of athletes to represent Team Jersey at the 2018 Commonwealth Games to be held at Gold Coast City, Australia..

Dear Secretary,

I attach a copy of the Selection Criteria paper which has been approved by the Association's Validation Group applicable to the nomination of athletes by your Association competing in the sport of Full Bore Shooting for consideration for selection to represent Team Jersey at the 2018 Gold Coast Games.

Please check through this paper very carefully to ensure that the members of the Validation Group have the correct version of your Association's Selection Criteria paper. Selection Criteria from all member sports have been amended during the validation process and it is essential that there is agreement before the paper is published on the CGAJ's website.

If agreed please have the confirmation below signed by the President or Secretary (or equivalent) of your Association and return this letter to me as soon as possible. Whilst the sport of shooting is represented by our member the Commonwealth Games Target Shooting Association, we recognise that the various disciplines in the sport have their own governing bodies and for the purpose only of receiving this confirmation we are happy to receive this sign off either from an official of our member association or the Jersey Rifle Association as you see fit.

Yours sincerely,

Graham Huelin
Chairman CGAJ Validation Group

I, EDWARD SHORROCK as HONORARY SECRETARY of Commonwealth Games Target Shooting Association / Jersey Rifle Association (please delete whichever does not apply) acknowledge and agree the attached Selection Criteria for the 2018 Gold Coast Games to be the final version prepared by us and agreed with the Validation Group

Signed

Date

19 JUNE 2017.

Notes to the Selection Criteria

The following Selection Criteria have been established in line with guidelines issued by Commonwealth Games Association of Jersey (CGAJ) in its paper entitled "Team Selection Process of Team Jersey – 2018 Games" which governs the selection process as a whole. The paper can be found on the CGAJ website <http://www.cgaj.org/>.

Athletes aiming to achieve selection for Team Jersey should be aware that achieving the Performance Indicators described in their sport's Selection Criteria does not of itself guarantee selection:-

- Demonstrating commitment to the planned training, preparation and competition schedule evidenced by training log books and tournament planners is equally important; and
- If more athletes are confirmed to have achieved the performance indicators stated in their applicable Selection Criteria than there are places available to Team Jersey in that event then the Sport will provisionally select the athlete(s) to represent Team Jersey in the relevant event.
- After the establishment of the following Selection Criteria, The Commonwealth Games Federation imposed a cap on the overall team size of Team Jersey of 33 athletes across all sports¹ with no specific allocation between sports. If more than 33 athletes achieve the selection criteria for their respective sports then a Final Selection will be made by the Validation Group of the CGAJ.

Note¹ This excludes team sports in which Team Jersey does not normally compete and Beach Volleyball which was added late as a 2018 Games sport and whose athlete numbers will be added to Team Jersey if they achieve their relevant Selection Criteria.

JERSEY RIFLE ASSOCIATION

THE COMMONWEALTH GAMES 2018 QUALIFYING STANDARDS

OVERVIEW

To: The Commonwealth Games Association of Jersey Validation Group

7.62mm target rifle shooting in Jersey is carried out in the prone position on the outdoor ranges of Crabbé and Les Landes. The Qualifying Standards submitted cover the imperial target rifle discipline ("Fullbore"). The biggest annual Fullbore event in the world is the British Open at Bisley, Surrey, which attracts competitors of all standards from around the world. The event is run by the National Rifle Association (NRA) of Great Britain over a nine day period comprising 15 individual squadded competitions. The events and standards which enable a competitor to qualify for the Commonwealth Games which are part of the Bisley Imperial Meeting are listed in item 3 on page 8 of this document. The average entry per squadded competition is 1,000 and this increases to around 1,200 entries for H.M. The Queen's Prize (the "Queen's Prize").

Listed below are the particular shooting events held at the Commonwealth Games for which this document sets out the Qualifying Standards. All events are Open (ie. no separate Men's and Ladies events).

Fullbore

The Fullbore events at the Games are held on an outdoor range. The shooters are not protected from the elements and shoot in the open in all weather conditions (except for poor visibility or lightning). The weather conditions, in particular the strength and direction of the wind, have a significant effect on a competitor's score. At long range (ie. 900 & 1,000 yards) the bullet has further to travel and so there is more time for the wind to affect its flight. Consequently scores are often lower. For this reason the qualifying standards that we are putting forward are based on 'positions' rather than 'scores'. Notwithstanding this, it would still be expected that a score of at least 390 out of 405 in a Queens course of fire (Individual) would be achieved. This is the score achieved by the 7th and 8th placed athletes in the 2014 Glasgow Games and 8th placed athlete in the 2010 Delhi Games and is equivalent of making a 'Final'.

With respect to the Pairs event, it is important for the individuals to have strong wind coaching skills as the coaching can win or lose more points than the shooter himself, especially at long range. Candidates cannot qualify on coaching skills alone, however, and must attain the standards set out on pages 8 – 12.

The target has scoring rings worth 5 for a bullseye, then 4, 3, 2 and 1 points. The target has a central bull ("V-Bull") which, like the larger bullseye ring, is worth 5 points but in the event two or more competitors have the same score, the one with the most V-Bulls has the higher placing. Ammunition is typically 'as issued', ie competitors may not use their own ammunition.

Fullbore: Commonwealth Games Individual Event

JERSEY RIFLE ASSOCIATION

THE COMMONWEALTH GAMES 2018 QUALIFYING STANDARDS

OVERVIEW

Distances and number of shots are as for the three stages of the Queen's Prize at the Imperial Meeting at Bisley (see above), ie.

Stage I

Distances: 300, 500 and 600 yards
No of shots: Two sighting shots and seven to count at each distance.
Maximum score: 7 shots x 5 points per shot = 35.7 (ie. 35 with 7 V-Bulls) x 3 distances = 105.21

Stage II

Distances: 300, 500 and 600 yards
No of shots: Two sighting shots and ten to count at each distance.
Maximum score: 10 shots x 5 points = 50.10 (ie. 50 with 10 V-Bulls) x 3 distances = 150.30

Stage III

Distances: 900 and 1,000 yards
No of shots: Two sighting shots and fifteen to count at each distance.
Maximum score: 15 shots x 5 points = 75.15 (ie. 75 with 15 V-Bulls) x 2 distances = 150.30

The final placings are decided on the aggregate scores in all three stages, with the maximum possible score being 405.81.

The scores at the 2014 and 2010 Games were as follows:

	Glasgow 2014	Delhi 2010
Gold	401	396
Silver	397	395
Bronze	394	393
4 th	393	392
8 th	390	390
15 th	385	385

Competitors may be squadded in pairs or threes (2 or 3 shooters sharing a target and taking it in turns to fire their shots and record each other's scores), care being taken to ensure as far as possible that competitors from the same country are not squadded together.

If target accommodation permits, all competitors shall fire shoulder to shoulder. If it is necessary to limit the number of firers in the second and/or third stages, a tie-shoot will take place for the last places.

A tie for any of the medals will result in a tie-shoot.

Fullbore: Commonwealth Games Pairs Event

JERSEY RIFLE ASSOCIATION

THE COMMONWEALTH GAMES 2018 QUALIFYING STANDARDS

OVERVIEW

Distances and number of shots are as for the second and third stages of the individual event (as above), with the exception that typically only one sighting shot per firer is allowed at each distance. One target is allotted to each pair. Time limits to complete the course of fire at 300, 500 and 600 yards are 35 minutes, and at 900 and 1,000 yards, 50 minutes (reduced time on electronic targets). The pairs fire in the prone position shoulder to shoulder. They may fire alternate shots or may shoot in a string, ie. one at a time.

Each pair of firers may coach each other (ie. keep an eye on the wind/mirage direction and strength, adjust their partner's sights and instruct him/her when to fire and when to hold). In testing wind conditions, the coach can win or lose more points than the shooter, especially at long range where the flight of the bullet is more greatly affected by the wind. (NB. Mirage refers to the heat haze on the range and shows the air currents that may affect the flight of the bullet).

Being a team event, all ties are counted out in accordance with ICFRA count-back rules. The maximum score is 600.120 (ie. 150 with 30 V-Bulls per stage per firer).

A Shooter's Development

Competitors will normally start their shooting career on an indoor smallbore rifle range shooting at 15 and 25 yards. Most of the Island's fullbore shooters have been introduced to the sport by friends, family, the cadet corps or by Victoria College. Once an accomplished .22mm smallbore shot, the shooter may then progress to 7.62mm fullbore on an outdoor range at distances of 200 to 1,000yards.

The Island supports 2 outdoor fullbore rifle ranges, Crabbé and Les Landes. The Crabbé range is used by the JRA for shooting at 200 to 600 yards and Les Landes for shooting at distances of 900 and 1,000 yards. The use of Les Landes is limited which means shooters need to train at Bisley in Surrey on a periodic basis to hone their long range shooting and winding reading skills.

The Development Route

The development of a fullbore shooter in Jersey starts with participation in club competitions and then moving to represent the JRA in team matches at local and inter insular level. The shooter may at the same time represent the JRA at international level.

In the Fullbore discipline, Jersey competes against GB. Jersey shooters therefore represent Jersey and the Channel Islands and are not permitted to be selected to shoot for GB.

There is no strict hierarchy of Fullbore events as many of the competitions are open to competitors of all standards. It is only in Commonwealth Games related events where individual selection by the JRA is required. However, as a broad indication, a list of the events that an individual will compete in is shown below:

- Individual club competitions and prize meetings
- Individual Island championships
- Individual CI Championships
- Selection as a member of an Island Team for Inter Insular and Club Matches

JERSEY RIFLE ASSOCIATION

THE COMMONWEALTH GAMES 2018 QUALIFYING STANDARDS

OVERVIEW

- Selection to represent Jersey at the Island Games
- Selection for one of the development places in The Commonwealth Shooting Federation (European Division) Championships
- Individual County Open events
- Selection as a member of a County Team (but typically one has to be UK resident, eg at University in England)
- National Championships
- World Championships
- Selection as a member of an Island Team for International Matches
- Selection as a member of the Channel Island Team for International Matches
- Selection to compete in The Commonwealth Shooting Federation (European Division) Championships
- Selection to compete in The Commonwealth Shooting Federation Championships
- Selection to compete in The Commonwealth Games

It should be noted that there is no typical progression as such but it is the individual participation and achievement in these competitions which identifies an individual's talents, which are reflected in the classification system as described below.

This classification system is the yardstick of achievement in the Fullbore world. It is important to understand this classification system which is applied to the organisation of most (but not all) NRA (the national governing body) and other Open Events. Shooters compete in one of up to four classes based upon their ability and as determined by past performance at the NRA Annual Imperial Meeting.

NRA Classes of Competitors:-

Class X:

One who has during the last three years been:

- 1 In the top 50 of the "Grand Aggregate"; or
- 2 In the top 50 of "H.M. The Queen's Prize";
- 3 In the top 50 of the "St George's Prize".

Class A:

One who has during the last three years been:

- 4 In places 51st to 200th in the "Grand Aggregate"; or
- 5 In places 51st to 100th in "H.M. The Queen's Prize";
- 6 In places 51st to 100th in the "St George's Prize".

Class O:

One who is not Class X, Class A or Class T.

Class T:

JERSEY RIFLE ASSOCIATION

THE COMMONWEALTH GAMES 2018 QUALIFYING STANDARDS

OVERVIEW

One who, before the forthcoming Annual Bisley Imperial Meeting, has never been in the "Open Prize List" in any competition included on the current Individual's Entry Form, for the Annual Bisley Imperial Meeting, above the last O-Class shooter to make the prize list and if an overseas competitor is under the age of 25.

For selection purposes, the JRA would not usually consider a competitor who has not attained a Class X classification (or foreign equivalent¹). It is however possible for Class A shooters to compete at an appropriate standard to be considered for selection.

Qualifying Events

We have broken down the level of a qualification for the "Qualifying Standard" and have tried to show the importance of the competition to the competitor and yourselves by assigning each Qualifying Event to one of two categories depending upon the number of entries and the quality of competition we would expect at the event.

We hope that this overview of the Fullbore Event is some help to you and should you require any further information, or would wish a meeting with us then please do not hesitate to contact us.

The Jersey Rifle Association

¹ Example of variances of Fullbore Classifications: In Australia, Fullbore has an A, B and C grading system reviewed annually in every State bar Western Australia where they apply a division system splitting competitors by number and skill.

Fullbore Rifle Events

- Queen's Individual
- Queen's Pairs

Competitors wishing to be considered for any of these events in the Commonwealth Games 2018 must register with the Commonwealth Games Association of Jersey (either as an Athlete and/or Coach) by 31 December 2015.

Competitors will then be required to submit a CV of Qualifying Results achieved at one or more Qualifying Events during the 2016 and/or 2017 season. What constitutes a Qualifying Result or a Qualifying Event is described below. The Competitor must also provide copies of official result records in support of their CV if requested. For ease of reference, it is noted that the results of the Bisley Imperial Meeting are published on the NRA website.

Competitors wishing to be considered for the Commonwealth Games 2018 may qualify to be considered for selection by achieving the Qualifying Standard as described more fully in the "Qualifying Standards" section below.

The Qualifying Standards should be regarded as a minimum and competitors should seek to demonstrate ongoing commitment to competing at an appropriate level of competition in the period leading up to the Games even after the competitor has achieved the Qualifying Standard.

In the event that there are more selection candidates than team places available, the selection will be based upon the quality and depth of the qualifying results and scores contained in the CV's presented. Accordingly achieving the Qualifying Standard does not necessarily mean the competitor will be automatically selected.

Furthermore, the Commonwealth Games Association of Jersey expects a certain level of commitment to have been demonstrated by the competitor in order to be considered for selection. For example, competitors will be required to attend certain squad events (where possible) and maintain and submit a training log to the CGAJ on a quarterly basis from 2016.

The remainder of this paper is divided into the following sections:

1. **Qualifying Events:** Those events at which a competitor should seek to achieve a Qualifying Result.
2. **Qualifying Results:** An explanation of the positional results competitors need to achieve at the various Qualifying Events which will achieve the Qualifying Standard.
3. **Qualifying Standards:** An explanation of the Qualifying Results that will be regarded as achieving the Qualifying Standard for selection.

1 Qualifying Events

In the following tables of Fullbore events, the "Categories 1 or 2" refer to the status of the particular event for the purposes of the Qualifying Standards described below and take account of the nature and

status of the event, its likely quality in terms of the number of entrants and the quality of the field. This assessment could be revised in the light of actual entry levels at the event.

Any such revision may be made either to upgrade an event from Category 2 to Category 1 or to downgrade an event from Category 1 to Category 2 or from Category 2 to remove it altogether as a Qualifying Event. Any such revision would only ever be made by the JRA Selection Committee in exceptional circumstances where for example the number and quality of competitors was very much higher or lower than would normally be expected at the event. Every effort will be made to identify any such exceptional circumstances ahead of the event and potential competitors advised accordingly but competitors should be aware that such exceptional circumstances may only become apparent during or after the event and the decision to upgrade or downgrade the Category of an event taken at that time."

A) **Fullbore Target Rifle Events**

Ref	Qualifying Event & Qualifying Standard	Category (See Qualifying Standards P.14 & 15)
1.	Commonwealth Shooting Federation Championships Individual Place in top 10 Pairs place in top 5	Category 1
2.	Commonwealth Shooting Federation (European Division) Championships Individual place in top 5 Pairs place in top 3	Category 1
3.	Annual Bisley Meeting a) Individual squaddled competitions and aggregates listed on the entry form or for which entry is automatic – place in top 10 b) Grand Aggregate – place in top 50 c) The Queen’s Final - place in top 50 d) St George’s Final – place in top 50 e) Donaldson Memorial – place in top 50 f) British Open – place in top 50 g) World Individual Championships (when applicable) – place in top 80	Category 1 Category 1 Category 1 Category 1 Category 1 Category 1 Category 1
4.	JRA Open Championships (International Level ²) a) Grand Aggregate – place in top 6 b) Individual squaddled competition or aggregate – 1 st place or tie for 1 st place c) Jersey VIII – 1 st or tie for 1 st place	Category 2 Category 2 Category 2

² Some CI events are classed as International Level, eg. JRA Open Championships. Although the number or entries is significantly lower than at the British Open Meeting at Bisley, the standard is often as high.

5.	Jersey Spring Prize Meeting / Guernsey Open Meeting / any other Open Prize Meeting in the Channel Islands (International Level) a) Grand Aggregate – 1 st place or tie for 1 st place b) Individual squadded competitions or aggregates – 1 st place or tie for 1 st place	Category 2 Category 2
6.	Island Championships – 1 st place or tie for 1 st place	Category 2
7.	Channel Island Championships – 1 st place or tie for 1 st place	Category 2
8.	Bisley Easter Meeting a) Grand Aggregate – place in top 6 b) Individual competitions or aggregates – 1 st place or tie for 1 st place	Category 2
9.	Army Open a) Grand Aggregate – place in top 6 b) Individual competitions or aggregates – 1 st place or tie for 1 st place	Category 2
10.	British Commonwealth Open Meeting a) Grand Aggregate – place in top 6 b) Individual competitions or aggregates – 1 st place or tie for 1 st place	Category 2
11.	Surrey Open Meeting a) Grand Aggregate – place in top 6 b) Individual competitions or aggregates – 1 st place or tie for 1 st place	Category 2
12.	City Open Meeting a) Grand Aggregate – place in top 6 b) Individual competitions or aggregates – 1 st place or tie for 1 st place	Category 2
13.	London & Middlesex Open Meeting a) Grand Aggregate – place in top 6 b) Individual competitions or aggregates – 1 st place or tie for 1 st place	Category 2
14.	Any other Open Meeting approved by the JRA Commonwealth Games Selection Committee and of similar standard to Events 8-12 above. a) Grand Aggregate – place in top 6 b) Individual competitions or aggregates – 1 st place or tie for 1 st place	Category 2

15.	<p>Any other National Open Meeting approved by the JRA Commonwealth Games Selection Committee, eg. Canadian National Open Meeting, South African National Championships, Australian National Championships, New Zealand National Championships.</p> <p>Individual squadded competitions and aggregates listed on the entry form or for which entry is automatic – place in top 10</p> <ul style="list-style-type: none"> a) Grand Aggregate – place in top 30 b) Queen’s / Queen’s equivalent – place in top 30 c) World Individual Championships (when applicable) – place in top 80 	Category 1
16.	<p>Australian State Championships</p> <ul style="list-style-type: none"> a) Individual squadded competitions and aggregates listed on the entry form or for which entry is automatic – place in top 10 b) Grand Aggregate – Place in Badge positions c) Queen’s – Place in Badge positions 	Category 1

2. Qualifying Results

- a) A competitor shall be considered to have achieved a Qualifying Result if either
- i. He achieves a position in a Qualifying Event as specified above or
 - ii. He achieves a position in a Qualifying Event lower than that specified above but with a **Gunscore** equal to that of the competitor who was in the lowest position in the Qualifying Event that would have been a Qualifying Result.
- Different events apply different rules eg countback, to differentiate between competitors who achieve the same **Gunscore** or shooting score. This condition simply recognises that in achieving an equal Gunscore the competitor has in fact shot to a standard that is the equivalent to achieving a Qualifying Result or
- iii. He achieves a score in a Qualifying Event that is within 1% of the winning score for that Qualifying Event (Fullbore), providing the maximum possible score in the Qualifying Event is not less than 300.
- b) In order for an International Event to be regarded as a Qualifying Event it should be possible to demonstrate that it presents a similar standard of competition to other International Events in the above “Qualifying Events” taking into account the number of competitors and the quality of competition. It will have to be approved as such by the JRA Commonwealth Games Selection Committee taking account of the factors described above.

- c) In Fullbore Rifle a competitor may achieve a Qualifying Result in any Qualifying Event regardless of the range or combination of ranges (distance from target) at which the competition is held.

4 Qualifying Standards

A) Fullbore Rifle - Individual Events

As indicated above a competitor will be regarded as having achieved the Qualifying Standard in the following circumstances:

By achieving a Qualifying Result at one or more (as necessary) of the Qualifying Events listed above as follows:

- a) Any 1 Qualifying Result at any of the events in Category 1; or
- b) Any 3 Qualifying Results at any of the events Category 2 but so that no more than 2 such Qualifying Result may be achieved in Jersey.

C) Fullbore Rifle - Pairs Events

Competitors will be regarded as having achieved Qualifying Standards for selection as a Pair for Pairs Events in the following circumstances:

1. If each competitor achieves the Qualifying Standard as Individuals; or
2. If at any Qualifying Event the pair have competed as a pair and achieved a Qualifying Result as per the above tables.

The JRA Commonwealth Games Selection Committee (the “Selection Committee”)

The Selection Committee is The Executive of the JRA and comprises the President, the 3 Vice Presidents, the Hon. Secretary, the Hon. Treasurer and the Captain. Any of the above persons who wish to be considered for selection will not sit on the Selection Committee nor will they be replaced.

Only shooters who have registered with the Commonwealth Games Association of Jersey (the “CGAJ”) before the start of the qualification period (i.e. by the end of December 2015) may be considered for selection unless the CGAJ decides otherwise.

Qualification may only be achieved in the two seasons prior to the Commonwealth Games, which for the 2018 Games means results achieved at any of the Qualifying Events between 1 January 2016 and 30 September 2017. Since the Fullbore season typically runs from Spring to Autumn, which in Great Britain is March to September inclusive, the Selection Committee would usually select during the first week in October in the year prior to the Games. However, the selected Pair should be given a minimum of six months to train post selection.

The cut-off date for validation by the CGAJ of nominees selected by the JRA will be December 2017. In the circumstances, The Selection Committee proposes the following process to achieve that timetable as well as seeking to ensure that those selected and validated have the best opportunity to prepare and practise together as a pair as set out above:

- The registered shooters’ number will be reduced to three at the close of the 2016 season
- At the end of August 2017, provided that the qualification standards have been met, the pair shall be selected, who shall be the pair to compete in the CSF Championships in November 2017 in the Gold Coast and who, subject to the appeal process below, shall also be the validation nominees for selection by CGAJ to compete at the Commonwealth Games in 2018.
- The third shooter, provided that qualification standards have been met, shall be selected to compete at the CSF Championships as the third place and shall be nominated for validation with the CGAJ as the reserve for the Commonwealth Games.

The Selection Committee shall publish at dates in October 2016 and in late August 2017 by which time CVs and shooting scores shall be submitted for consideration in order that the Selection Committee shall make the selections as stated above. The Selection Committee shall also publish as soon as possible common formats for the submission of scores so that comparison between shooters’ scores and performance is made easier.

In making the selections above, in the consideration of all possible Qualifying Event scores and overall shooting performance by candidate shooters, the Selection Committee shall give emphasis to long range shooting performance which is recognised as often being the deciding factor in high level competition. Every candidate should receive a letter (sent at the same time by post and email) to confirm whether he has been successful in selection (the “**Confirmation Letter**”). Each and every candidate should be notified of their right to appeal.

Appeals

A candidate has a right to appeal a decision of the Selection Committee. The JRA Council must, therefore, nominate an appeals committee (the “**Appeals Committee**”) which is independent of the Selection Committee before selection takes place. Failure to do so will invalidate the selection.

A candidate's appeal must be made to the Appeals Committee within 14 days of receipt of the Confirmation Letter from the Selection Committee and all other candidate's should be immediately notified of the appeal. The Appeals Committee should review the appeal evidence without undue delay and should reach a decision within 14 days of the appeal, immediately notifying the outcome of the decision to the relevant candidates and the JRA Council.

No submission by the JRA or the Jersey Target Shooting Federation to the CGAJ to validate the selection of the pair to compete at the Commonwealth Games shall be made until the time for appealing has elapsed or any appeal has been considered and determined.

Indication of how the proposed Qualifying Standards relate to results in the Games

The above Qualifying Standards have been carefully considered and are designed to be achieved by candidates who are capable of finishing in the top 10 at the Commonwealth Games and have a realistic chance of winning a medal if they perform to their best.

In the 2010 Games, the Jersey fullbore shooters finished 5th and 17th in the individual. There were 42 entries. In the pairs event, the Jersey fullbore pair finished 9th from 21 entries.

In the 2014 Games, the Jersey fullbore shooters finished 7th and 16th in the individual. There were 34 entries. In the pairs event, the Jersey fullbore pair finished 5th from 17 entries.
